

# E61438

## Spring arm for encoders

ENCODER SPRING ARM

1 operating range

### Application

Design

for encoders with 58 mm diameter

### Operating conditions

Ambient temperature

[°C]

-30...60

# E61438

## Spring arm for encoders

ENCODER SPRING ARM

Mechanical data	
Weight [g]	527.1
Installation instruction	can be mounted from both sides
Dimensions [mm]	180 x 65.9 x 75
Outer diameter [mm]	300
Material	aluminum anodized; Spring: stainless steel (1.4310 / 301)
Tightening torque [Nm]	4.3
Max. angular displacement [°]	45
Activation force [N]	10...30
Remarks	
Remarks	With scale
Pack quantity	1 pcs.
