

Glass Break Detector

Leviton offers a variety of wireless products for security and automation functions.

The 61A00-1 Wireless Glassbreak Detector is an omnidirectional acoustic sensor and wireless transmitter. It is used for detecting the sound of breaking glass, providing 360° of coverage. Requires a Leviton Security & Automation 64 Zone Wireless Receiver (Leviton Security & Automation part# 45A00-1). Uses a CR23A lithium ion battery, included.

Leviton's wireless products use 433Hz frequency and require a Leviton Automation system. ■

Dimensions

Width: 4.24", Height: 3.13", Depth: 1.7"

*Wire Type: 22/4

Product will work with either the Leviton Omni or the Lumina automation systems. May be added at time of initial installation or later as needs change. (Requires part#: 45A00-1).
